

To exchange expertise and increase efficiency of production and investment

TABADUL and Sadara Ink MoU to Develop Logistic Solutions for Petrochemical Industry

JUBAIL INDUSTRIAL CITY, Saudi Arabia, May 25, 2022 -- Saudi Electronic Information Exchange Company (TABADUL) signed a Memorandum of Understanding (MoU) with Sadara Chemical Company (Sadara) on Monday May 23, 2022 at TABADUL's headquarters in Riyadh.

The MoU was signed by TABADUL CEO Mr. Majed Al Otaibi and Sadara CEO Dr. Faisal Al-Faqeer.

The MoU aims to develop specialized logistics solutions for the petrochemical industry. As a leading organization in this field, TABADUL will also deliver the most effective technical solutions that will support Sadara's capabilities to pilot projects in the petrochemical sector. The MoU will further strengthen the partnership between both parties in sharing their know-how through joint Research and Development projects. Particularly, it will enhance supply chain automation, which will help boost operational performance and business efficiency.

TABADUL CEO Mr. Majed Al Otaibi said, "Through this Memorandum of Understanding, TABADUL hopes to achieve its vision of leading the digital transformation of logistics services throughout the Kingdom, as well as introducing innovative logistical solutions and automating services for this vital sector. We will also forge strong partnerships with various government agencies and the private sector in a way that improves their productivity and operational capacities while also achieving the goals of the National Industrial Development and Logistics Program (NIDL), Saudi Vision 2030's flagship program."

Sadara CEO Dr. Faisal Al-Faqeer said, "The petrochemicals sector is one of the main pillars of the economic roadmap outlined through Saudi Vision 2030. We believe this MoU will enhance the performance and productivity of the Saudi petrochemicals sector as it will help develop the logistics services that are instrumental to our

operations. Our partnership with TABADUL reflects the optimal integration between national companies. This memorandum of understanding will create an efficient framework for sharing expertise to facilitate the digital transformation of logistics in the petrochemicals industry."

###

About Sadara:

Sadara is a joint venture developed by the Saudi Arabian Oil Company (Saudi Aramco) and The Dow Chemical Company. Sadara is a multi-billion-dollar world-scale chemical complex in Jubail Industrial City II in Saudi Arabia's Eastern Province. Comprised of 26 world-scale manufacturing units, the Sadara chemical complex is the world's largest to be built in a single phase and is the only chemical company in the Middle East to use refinery liquids, such as naphtha and natural gasoline, as feedstock. By using best-in-class technologies to crack refinery liquid feedstock, Sadara will enable many industries that either currently do not exist in Saudi Arabia or only exist through imports of raw materials.
