

Press Release:

Sadara Seeks Female Talent at ‘A Step Ahead’ Career Fair in Riyadh

Riyadh, October 1, 2019 -- Sadara Chemical Company (Sadara) is participating in the “A Step Ahead” Career Fair, the number-one female career fair and recruitment-related conference in the Kingdom, endorsed by the Ministry of Labor and the Human Resources Development Fund.

The “A Step Ahead” Career Fair is a three-day program, held October 1-3, which is designed to qualify talented females and enrich their job-hunting opportunities as well as their social and personal skills to ensure their continuous participation in achieving the Kingdom’s Vision 2030.

Sadara’s sponsorship of “A Step Ahead” focuses on providing exciting career opportunities for women in a dynamic industry at the heart of Vision 2030, helping to diversify Sadara’s work teams and ensure continuous professional development in all relevant fields.

Farhan M. Al Qahtani, Vice President of Industrial Relations for Sadara commented highlighting that Sadara is constantly working to recruit and develop Saudi females so that they may actively participate in and contribute to the company’s success. “Sadara exerts great efforts to ensure that the Company provides the ideal work environment for all employees, with equal development opportunities within a challenging professional career path. Our participation in the ‘A Step Ahead’ Career Fair aims to encourage the involvement of Saudi women in achieving the Company’s goals which in turn are in support of Saudi Arabia’s Vision 2030.”

About Sadara:

Sadara is a joint venture developed by the Saudi Arabian Oil Company (Saudi Aramco) and The Dow Chemical Company. Sadara is a multi-billion dollar world-scale chemical complex in Jubail Industrial City II in Saudi Arabia’s Eastern Province. Comprised of 26 world-scale manufacturing units, the Sadara chemical complex is the world’s largest to be built in a single phase and is the only chemical company in the Middle East to use refinery liquids, such as naphtha, as feedstock. By using best-in-class technologies to crack refinery liquid feedstock, Sadara will enable many industries that either currently do not exist in Saudi Arabia or only exist through imports of raw materials. The adjacent PlasChem Park, a unique collaboration between Sadara and the Royal Commission for Jubail and Yanbu’, will create more value downstream, generating unprecedented investment, innovation, economic growth and thousands of jobs.
