

## **Sadara Achieves Major Milestone with Arab Quality Award Win**

**RABAT, Morocco, Feb. 6, 2025** – Sadara Chemical Company (Sadara) has been awarded the Arab Quality Award, marking a significant milestone in recognition of its leadership and excellence in the chemical manufacturing sector.

The award was presented by the Arab Industrial Development, Standardization and Mining Organization (AIDSMO) during an official ceremony held on Thursday, Feb. 6, 2025, on the sidelines of the 60<sup>th</sup> meeting of the Arab Committee for Standardization in Rabat. The award was received on behalf of Sadara by Jamal Binzagr, Director of Corporate Communications, and presented by Adel Al-Saqr, Director General of AIDSMO.

AIDSMO, a specialized organization of the League of Arab States, established the Arab Quality Award to encourage Arab companies to adopt excellence-driven management and performance practices, strengthen quality and safety standards, and promote the efficient use of resources and energy. These efforts support the competitiveness of Arab industries in both regional and international markets.

The award is granted based on a rigorous assessment framework that covers leadership, strategic planning, human capital development, resource management, and stakeholder and partner engagement. The Saudi Standards, Metrology and Quality Organization (SASO) represented the Kingdom of Saudi Arabia at the event, which was attended by H.E. Saad Al-Qasabi, Governor of SASO.

This recognition further strengthens Sadara's position as a leading player in the chemical industries sector. The company remains steadfast in its commitment to the highest standards of quality, safety, and operational excellence, while delivering innovative solutions enabled by advanced technologies that support sustainable production and reduce environmental impact. The award underscores Sadara's ability to achieve industrial excellence aligned with international benchmarks, contributing to the national economy and reinforcing the Kingdom's standing as a regional and global hub for the chemicals industry.

This achievement adds to Sadara's strong record of excellence. The company has previously received the King Abdulaziz Quality Award, reflecting its consistent adherence to world-class management practices and production standards. Such continued recognition highlights Sadara's success in fostering a culture of quality and innovation and in building an integrated, high-performance work environment across its operations.

**About Sadara:**

*Sadara is a joint venture developed by the Saudi Arabian Oil Company (Saudi Aramco) and The Dow Chemical Company. Sadara is a multi-billion-dollar world-scale chemical complex in Jubail Industrial City in Saudi Arabia's Eastern Province. Comprised of 26 world-scale manufacturing units, the Sadara chemical complex is the world's largest to be built in a single phase and is the only chemical company in the Middle East to use refinery liquids, such as naphtha and natural gasoline, as feedstock. By using best-in-class technologies to crack refinery liquid feedstock, Sadara will enable many industries that either currently do not exist in Saudi Arabia or only exist through imports of raw materials.*
