

## **Sadara Wins MODON Industrial Excellence Award for Corporate Social Responsibility**

**RIYADH, Dec. 23, 2025** – Sadara Chemical Company (Sadara) has received the MODON Industrial Excellence Award for 2025 in the Corporate Social Responsibility category, in recognition of its sustained commitment to responsible business practices and community impact. The award was presented by His Excellency the Minister of Industry and Mineral Resources, Bandar bin Ibrahim Alkhorayef, who also serves as Chairman of the Saudi Authority for Industrial Cities and Technology Zones (MODON).

Instituted by MODON in partnership with the Ministry of Industry and Mineral Resources, the award was received on behalf of Sadara by Jamal Binzagr, Director of Corporate Affairs and Communications.

The recognition underscores Sadara’s continued commitment to social responsibility and its leadership across governance, community development, and environmental sustainability. Through a portfolio of impactful initiatives and programs, Sadara contributes to building a vibrant society and a thriving economy, in line with the objectives of Saudi Vision 2030.

The MODON Industrial Excellence Award is one of the Kingdom’s leading national initiatives designed to promote continuous improvement among industrial partners. It highlights outstanding practices across key areas including innovation, sustainability, digital transformation, corporate social responsibility, and the development of national talent, strengthening the competitiveness of Saudi industry at both local and global levels.

Commenting on the achievement, Binzagr said: “This award reflects Sadara’s firm commitment to embedding corporate social responsibility at the core of our operations. Through high-impact initiatives, we aim to advance sustainable development, enhance quality of life across the Kingdom, and support national priorities and long-term economic growth.”

**About Sadara:**

*Sadara is a joint venture developed by the Saudi Arabian Oil Company (Saudi Aramco) and The Dow Chemical Company. Sadara is a multi-billion-dollar world-scale chemical complex in Jubail Industrial City in Saudi Arabia's Eastern Province. Comprised of 26 world-scale manufacturing units, the Sadara chemical complex is the world's largest to be built in a single phase and is the only chemical company in the Middle East to use refinery liquids, such as naphtha and natural gasoline, as feedstock. By using best-in-class technologies to crack refinery liquid feedstock, Sadara will enable many industries that either currently do not exist in Saudi Arabia or only exist through imports of raw materials.*
