

Sadara and Rossari Sign MoU for Feedstock Supply for Manufacturing Facility in the Kingdom of Saudia Arabia

JUBAIL, Saudi Arabia, Feb. 1, 2026 – Sadara Chemical Company (Sadara) today announced the signing of a non-binding Memorandum of Understanding (MoU) with Rossari International Limited Company (Rossari), a wholly owned subsidiary of Rossari Biotech Limited, to explore the supply of essential feedstock for production of various specialty chemicals by Rossari’s proposed state-of-the-art manufacturing facility in Kingdom of Saudia Arabia. The signing ceremony took place at Sadara Business Complex in Jubail Industrial City.

Rossari will convert Sadara’s produced feedstock into a portfolio of specialty chemical products primarily aimed at the construction, infrastructure, agrochemicals, consumer goods, homecare, personal care and oilfield services sectors.

The signing was attended by **Majed AlUteibi**, Deputy Minister for Oil and Gas Technical and Regulatory Affairs at the Ministry of Energy, and **Riyad Al-Wabil**, Senior Advisor and Director of the Technical Studies and Regulation Department (Petrochemicals) at the Ministry of Energy.

Speaking at the ceremony, Sadara’s Chief Executive Officer **Fayez Alsharef** said: "This collaboration reinforces Sadara’s commitment to industrial integration and downstream growth. It strengthens our contribution to Vision 2030 through economic diversification, job creation, localization, and enhances the Kingdom’s competitiveness in regional and global markets."

Commenting on the association, Rossari’s Co-Founder & Managing Director, **Sunil Chari** said: "Association with Sadara provides us with the strategic foundation and reliable feedstock to meet our customers’ needs with high-quality, value-added solutions. We look forward to a long-term, mutually beneficial relationship."

-End-

About Sadara:

Sadara is a joint venture developed by the Saudi Arabian Oil Company (Saudi Aramco) and The Dow Chemical Company. Sadara is a multi-billion-dollar world-scale chemical complex in Jubail Industrial City in Saudi Arabia's Eastern Province. Comprised of 26 world-scale manufacturing units, the Sadara chemical complex is the world's largest to be built in a single phase and is the only chemical company in the Middle East to use refinery liquids, such as naphtha and natural gasoline, as feedstock. By using best-in-class technologies to crack refinery liquid feedstock, Sadara will enable many industries that either currently do not exist in Saudi Arabia or only exist through imports of raw materials.
